MIDUS 3 Project 7 (Retention Early Warning)

Abstract

In 2019, MIDUS attempted to contact and convert 2,239 participants who had dropped out of either the M2 or M3 Survey Projects. Dubbed the “Retention Early Warning” or “REW” Project, this was an effort to address longitudinal respondent attrition in MIDUS as well as explore early life vulnerabilities that may influence subsequent health profiles. REW recruited drop-outs from earlier waves of the study by using in-person interviews and increased monetary incentives. Respondents were interviewed in their homes using a Computer Assisted Personal Interview (CAPI) survey protocol. In addition to the survey interview, respondents were asked to complete a Self-Administered Questionnaire (SAQ), a shortened version of the Brief Test of Adult Cognition via Telephone (BTACT), and to provide anthropometric measures as well as Dried Blood Spots for select biomarkers. Data collection largely repeated previous assessments, though modules were shortened or adjusted to account for the in-person interview format. CAPI survey data was collected for 651 individuals, realizing a 31% response rate, adjusted for mortality.

C7CGS8A - Respondent's wages last calendar year

Type	Code
C7CGS8A	Think about the income you earned in the last calendar year from each source listed below. Please indicate the letter representing the amount of pre-tax income you earned from - WAGES, SALARIES AND OTHER STIPENDS FROM ALL YOUR JOBS, INCLUDING SELF-EMPLOYMENT? DO NOT INCLUDE PENSIONS, INVESTMENTS, OR ANY OTHER FINANCIAL ASSISTANCE OR NON-WAGE INCOME.
PreQuestionText	The next several questions ask about the different sources of income you, your spouse and other family members in your household may have had over the last calendar year. You may need to consult your records to answer some of these questions. I will ask you about earned income such as wages and stipends, any pension and social security income and government assistance payments that you, your spouse and other household members received in 2011. Please take some time to gather your records if necessary.
InterviewerInstruction	(Please fill in the letter representing the amount of pre-tax income you earned from that source. If you have earned no income from a source, enter letter “B” in the space provided.)

C7B8A - Chair rise: Able to conduct the measurements?

Type	Code
C7B8A	Were you able to conduct this measurement?
PreQuestionText	In the next measurement, I'll be asking you to stand up from a chair without using your arms. I will ask you to stand up from the chair as quickly as you can five times, without stopping in between. After standing up each time, sit down and then stand up again. Keep your arms folded across your chest

Type	Code
C7SC1	Using a scale from 0 to 10 where 0 means "the worst possible work situation" and 10 means "the best possible work situation," how would you rate your work situation these days?
PreQuestionText	For this question, your 'work situation' includes unpaid work that you might do at home or as a volunteer in addition to full- or part-time work you might be paid to do. So, for example, it includes cleaning up around the house and doing yardwork, volunteer activities you might do for no pay, and includes work for which you are paid.

PreQuestionText	I am going to read a list of 15 words. Listen carefully. When I am finished, you are to repeat as many of the words as you can remember. It doesn't matter in what order you repeat them. Just try to remember as many as you can. I will say each word only once time, and I cannot repeat any words. You will have up to one and a half minutes, and I will not say anything until I tell you that your time is up. Do you have any question? Are you ready? (...) Now tell me as many words as you can remember.

PreQuestionText	Now I am going to give you a category and you will name things that belongin that category. Let's practice with the category "fruit". You could say peach, or pear. Can you think of any other fruits? In a moment I will give you another category. When I say begin, you will name all the things from this new category you can think, as fast as you can. You will have one minute to do this. I will let you know when your time is up. The new category is (...) do you have any questions? Ready? Begin.

C7TNS1 - Number Series 1: Response

Type	Numeric (Integer)
C7TNS1	Let's try one for practice: 35 (okay), 30 (okay), 25, (okay), 20(okay), 15 (okay), AND the next number would be ….???? (The answer should be 10 as each number has decreased by 5). There will be different patterns, and some of these will be harder than others, so just do the best you can. If you are not sure of the answer, it is okay to guess. Do you have any questions?
PreQuestionText	In the next exercise I will read you a series of numbers that may get larger or smaller in value. At the end you will try to figure out what the next number would be. So if the numbers were 2,4,6,8,10, the next number would be 12. After I say each number I will pause for as long as you need, and then you should say "okay" when you ready for me to go on to the next number in the group. So if I said 2, you should say "okay" when you are ready for me to go on to the next number, then I say 4, you say okay, 6, okay, 8, okay, 10, and at the end I will ask you what you think the next number would be. In this case the next number would be 12, as each number has increased by 2.
