MIDUS Milwaukee Refresher Survey

MIDLIFE IN THE UNITED STATES: A NATIONAL STUDY OF HEALTH AND WELL-BEING

FUNDED BY THE NATIONAL INSTITUTE ON AGING

MIDUS Milwaukee Refresher Survey

Abstract

In 2012-2013, the MIDUS Milwaukee Refresher study recruited a sample of 508 Milwaukee African American adults, aged 25 to 64, designed to replenish the original MIDUS Milwaukee 1 survey (N=592) that was conducted in 2005. This sample also was designed to increase the number of racial minorities included in the broader MIDUS study. The MIDUS Milwaukee Refresher survey employed the same comprehensive assessments (demographic, psycho-social, and physical and mental health) as those assembled on the existing MIDUS sample, but with additional questions about the effect of the economic recession of 2008-09. The survey data collection (Project 1) consisted of a 2.5 hour in-person interview (CAPI) followed by a 45-page mailed self-administered questionnaire. This new MIDUS sample allows the examination of period effects on health (mental and physical) related to the economic recession by comparing the pre-recession MIDUS Milwaukee 1 (2005) sample with the post-recession MIDUS Milwaukee Refresher sample. Participants in the MIDUS Milwaukee Refresher sample also followed the same multi-disciplinary protocol established in the main MIDUS sample, in that after completing the survey protocol respondents were asked to complete a cognitive assessment by phone (Project 3) and later became eligible to participate in daily diary assessments (Project 2), biomarker assessments (Project 4), and neuroscience assessments (Project 5).

RAACLS12

Label
Who does more household chores

preQTxt
Running a household involves a lot of chores like cooking, shopping, laundry, cleaning, yard work, repairs, and paying bills. Couples vary in who does these things. The next question asks about how you split these chores. IF you have children, please do not count childrearing tasks such as bathing them, taking them places, or helping them with their homework, but do include chores like doing their laundry, washing their dishes, or cooking for them.

qstnLit
Would you say you do a lot more household chores than your spouse, you do somewhat more than your spouse or partner, you do a little more than your spouse, chores are split equally, your spouse does a little more than you, your spouse does somewhat more than you, or your spouse does a lot more than you?

RAASC4

Label
Rank standing in community on ladder

Source Questions

RAASC4
Where would you place yourself on this ladder? Please check the box next to the rung on the ladder where you think you stand at this time in your life, relative to other people in the community with which you most identify.

preQTxt
Think of this ladder as representing where people stand in their communities. People define community in different ways; please define it in whatever way is most meaningful to you. At the top of the ladder are the people who have the highest standing in their community. At the bottom are the people who have the lowest standing in their community.

qstnLit
Where would you place yourself on this ladder? Please check the box next to the rung on the ladder where you think you stand at this time in your life, relative to other people in the community with which you most identify.
