The next section asks about various "levels" of physical activity (vigorous, moderate, light) - while at your job, while at home, and during your leisure/free time. Please answer each question thinking first about summertime, and then about wintertime. (If the question does not apply to you, for example, because you do not have a paid job or are retired, please circle 6 for "Never".)

A26. <u>Vigorous</u> physical activity causes your heart to beat so rapidly that <u>you can feel it in your chest</u> and you perform the activity long enough <u>to work up a good sweat</u> and <u>are breathing heavily</u>. Examples include: competitive sports like running, vigorous swimming, high intensity aerobics, digging in the garden, and lifting heavy objects.

A27. Moderate physical activity is not physically exhausting, but causes your heart rate to increase slightly and you typically work up a sweat. Examples include: leisurely sports like light tennis, slow or light swimming, low impact aerobics, or golfing without a power cart, brisk walking and mowing the lawn with a walking lawnmower.

The next questions are about body measurements. We have enclosed a tape measure to help you. It is yours to keep. The information will be more accurate if you follow these suggestions:

- ♦ Make measurements while standing.
- ♦ Avoid measuring over clothing (even thin clothing can add a ¼ inch).
- ♦ Try to record answers to the nearest quarter (1/4) inch.

#### E3. Think of this ladder as representing where people stand in their communities.

People define community in different ways; please define it in whatever way is most meaningful to you. At the top of the ladder are the people who have the highest standing in their community. At the bottom are the people who have the lowest standing in their community.

Where would you place yourself on this ladder?

Please <u>check the box</u> next to the rung on the ladder where you think you stand at this time in your life, relative to other people in the community with which you most identify.

# E4. The next set of questions deal with your views of yourself. How strongly do you agree or disagree with each of the following statements?

Running a household involves a lot of chores like cooking, shopping, laundry, cleaning, yard work, repairs, and paying bills. Couples vary in who does these things. The next question asks about how you split these chores. IF you have children, please do not count childrearing tasks such as bathing them, taking them places, or helping them with their homework, but do include chores like doing their laundry, washing their dishes, or cooking for them.
